

Use CMS as your Small Business Partner

Computer Management Services, Inc. (CMS) is a technical staffing augmentation consulting company. We have been providing staff augmentation resources to Fortune 500 companies and the Government, for over 20 years. CMS is designated by the Small Business Administration as a Small Business, a Small Certified Disadvantaged Business and a Veteran-Owned Small Business.

The majority of those years have been in the health related arena. Our main end user has been Health and Human Services which include the National Institutes of Health and the Social Security Administration. Our main areas of concentration have been in the following areas; IT conversion, from Mainframe to Web-based Technologies; IT Development, from Systems and Network Administration to Systems Programming and Software Development; Desktop support, from Client Server Architecture to Service Oriented Architecture (SOA); and Quality Assurance, from testing to IV&V to name a few. CMS is also heavily involved with MS Office technology. In addition, CMS has been involved with IT security and privacy issues as they relate to sensitive and classified information. Past performances can be provided upon request.

The mission of CMS is to satisfy our customer. Our goal is to provide that satisfaction each time, every time. This Quality Statement starts at the top with the executives, and is conveyed throughout the organization. Our aim is to give you exactly what you want, just the right persons for your assignments.

We look forward to hearing from you. Please send emails to me personally albert_demagnus@cmsdq.com

Thanks for your consideration,

Albert E. DeMagnus
